

HAWKING & WATSON

Two great minds on timeless topics

“Mathematics

is more than a tool...

...and language for science. It is also an end in itself, and as such, it has, over the centuries affected our worldview in its own right.”

—STEPHEN HAWKING

“Evolution is a fact...

...disputed only by those who choose to ignore the evidence, put their common sense on hold, and believe instead that unchanging knowledge and wisdom can be reached only by revelation.”

—JAMES WATSON
